■ ANNOUNCEMENT

ANNOUNCEMENT: New CCR Publication

Frontiers in Science as a stand-alone publication will be coming to an end in June 2007. CCR's intramural scientific news currently covered in *Frontiers* will be integrated into a new publication called *CCR Connections*, which will broaden communications to include external audiences as well. The new publication will highlight CCR's connectivity, its scientific interactions within and outside NCI's Intramural Research Program.
